

Policy: Admissions: **Concurrent Enrollment and Degrees**

Policy Title	Concurrent Enrollment and Degrees
Policy ID	2024.14-v1-ST_Po
Effective Date	June 2024
Responsible Office	Provost
Responsible Executive(s)	Admissions Office

Concurrent Enrollment

Students who apply for admissions to AUM usually do not seek simultaneous enrollment at another institution. Should students seek concurrent enrollment, they must obtain advance written approval from the Provost based on the Admissions Committee discussions and recommendations. Such approval enables a student to enroll elsewhere in a course unavailable at AUM that is relevant to their academic goals.

Students who enroll elsewhere without advance written permission while enrolled at AUM may not receive transfer credit for the course work taken.

Double Majors and Concurrent Degrees

At AUM a double major is defined as a single degree with two majors (for example a BS in two distinct disciplines). Concurrent degrees are defined as two different degrees (e.g. BS and BA) each with their own major. A double major may be approved provided that the student has a cumulative GPA of at least 3.0 at the time of electing a second major, has completed 2 full years of study towards the first major but no more than 60 US/120 ECTS credit hours.

For the second major to be recognized the student must meet all the degree requirements for both majors, including other courses, and complete at least 30 US/60 ECTS in addition to those required by the first major, i.e. the coursework must have at least 30 US/60 ECTS of specialized, program-specific coursework that is unique to each degree. No course substitutions will be available (to a student) in order to complete the requirements for a double major. Overlap in major requirements for each degree is limited to 12 academic credits. Students must apply for each degree separately and will receive a diploma for each degree earned.
